

THE ORIGIN OF "TURNCOAT."—It is said that the opprobrious epithet turncoat, took its rise from one of the first Dukes of Savoy, whose dominions were open to the contending powers of both France and Spain. Being subjected to the frequent incursions of the rival powers, he was obliged to temporize and favor powers alternately, as they seemed to be able or not to injure him. In order to carry out this arrangement to perfection, he had a coat made that was blue on one side and white on the other, so that it could be worn indifferently with either side out. When he was ostensibly on the side of Spain, he wore the blue side out; when the French were to be propitiated, he displayed the white side. He therefore became widely known as *Emmanuel, the Turncoat*, and was thus distinguished from the other princes of his house bearing the same name. Since the time of Emmanuel, the epithet has been applied to those who turn their opinions to suit the occasion, or their own personal interests.—*St. Louis Republic.*

MURAT HALSTEAD, the bitterest of bitter bloody-shirters, writes as follows of the election bill: "I believe in manhood suffrage, and will go as far as any one to sustain and vindicate it, but adding to dead-letter laws is not support and vindication. It is a style of self-deception that drifts into hypocrisy, and the reverse of statesmanship. The bill will not be executed if it is enacted, and it is not a measure upon which the republican army can be rallied to carry the democratic strongholds. The leading republicans in Washington know this and admit it; and I say 'leading men,' meaning very distinguished Senators and Representatives, of whose judgment I have information that comes from them." There is no confidence in this Lodge bill, whether as a law, if it should be passed, or an issue, whether it is passed or not."

DON'T RAISE YOUR HAT.—A fashion paper says it is no longer good form for a gentleman to raise his hat when he meets a lady on the street. A courteous wave of the hand, not unlike a military salute, has been substituted for the old custom in London, Paris, Vienna and points in America where the styles are started. It is not a fad but conviction that uncovering the head in the air caused a number of cases of influenza. To see a man go along the street and with a spasmodic grab yank his hat off and bring it down over his face so he can see the inside of a crown is amusing. Fools do the same thing and saphead dudes always. In the future keep on your hat if you wish to be in style. Make a semi-military salute, just touching the rim of the hat.

WHAT A MAN EATS.—A curious calculation of the amount of food consumed in a lifetime of 70 years has recently been made by M. Soyer, a French savant, now chief of the Reform Club of London. Among other things M. Soyer says that the average epicure of three score and ten will have consumed 30 oxen, 200 sheep, 100 calves, 200 lambs, 50 pigs, 2,200 fowls, 1,000 fish of different kinds, 30,000 oysters, 5,475 pounds of vegetables, 243 pounds of butter, 21,000 eggs, and four tons of bread, besides several hogsheads of wine, tea, coffee, &c. This enormous amount of food will weigh but little short of 40 tons.—*St. Louis Republic.*

One of the deepest coal mines in the world is at St. Andre du Poirier, France, and yearly produces 300,000 tons of coal. The mine is worked with two shafts, one 2,962 feet deep and the other 3,083. The latter shaft is now being deepened, and will soon reach the 4,000-foot level. The remarkable feature in this deep mine is the comparative low temperature experienced, which seldom rises above 75° Fah.

There is a firm in Cincinnati which each year beats 21,000 gold dollars into gold leaf, and as each dollar can be beat into a sheet that will carpet two rooms 16½ feet square, some idea may be formed of its tenacity. It requires 1,400 sheets of gold leaf to equal in thickness a sheet of writing paper, and takes 280,000 of them, piled upon the other, to equal an inch in thickness.—*St. Louis Republic.*

The cable to connect Halifax with Bermuda has reached the latter place. Its length is 874 miles and throughout it is of much greater weight than has hitherto been used. A careful survey of the bed of the ocean will be made, so as to discover the most suitable position for the cable. The temperature at different depths will at the same time be determined.

The purchaser of land on which is a spring acquires, as to the spring, rights of a riparian owner only. He can use it for any necessary and proper purpose incident to the land itself and essential to its enjoyment, but can not divert the flow of it on the land of another for any purpose without answering damages.

DANVILLE, BOYLE COUNTY.

—Mr. R. L. Salter and wife have returned from Hot Springs. Mr. Salter is about cured of his cancer trouble.

—Mr. Steve Owsley, who came to this place from Lincoln, and has kept a boarding-house for some time, has quit keeping boarders and will remove to his farm soon, near Hubble.

—It has been no strain on the ocular nerves to observe the "floaters" that have been in town for the last few days. More of them than we ever saw before. What a pity that such men are allowed a vote.

—Mr. J. S. Chrisman, chairman of the democratic county committee, deserves much praise for his faithful discharge of duty and his hard work for the party during the canvass just closed. We never saw a man work harder.

—To-day 5th, the 12th annual fair of Danville begins and lasts four days. This is ladies' day and they will be admitted free. Everything is in perfect order and it is talked of as going to be one of the best fairs we have ever had. Every one who has attended heretofore knows what pleasant grounds we have; so shady and so conveniently arranged. Tents are on the programme for each day.

—Rev. E. H. Pearce and family have returned from Cumberland Falls. Mr. James Shaw and Obe Caldwell, "tooth carpenters" of Burksville, are here to remain during the fair. Mr. C. A. Tinsley, of Barbourville, is here and we guess a fair maiden is the attraction. Misses May Marshall, of Maysville, Rosalie Hammer, of Virginia, and Nannie Wilson, of Williamstown, are the guests of Miss Lula D. Slaughter. Mr. Geo. Peyton and family, of Stanford, were guests of Mrs. A. E. Gibbons, on 3d street, last week. Col. John B. Fish, of Pineville, was here the latter part of last week on business. He's quite small (?) to get so far from home; he only weighs 275 lbs. Miss Gerrie Weber, a Knoxville beauty, is visiting at J. S. Roberts', on Harrodsburg avenue. Miss Jennie Shumate will teach her first school in Garrard, near Bryansville. Miss Annie Stuart, of Crab Orchard, was visiting at A. E. Gibbons' last week. Miss Nannie Gilmore, of Palaski, is visiting relatives in the county.

—Chas. Loving has been placed in jail at Chicago for bigamy. He is known to have five living wives and perhaps several more.

—The limited express on the Cincinnati Southern struck a boulder that had rolled on the track near Oakdale Junction Sunday night, throwing the engine and the mail and baggage cars from the track, which rolled down a 100-foot embankment. Only the engineer and fireman were killed, strange as it may seem.

—The Syracuse, N. Y., officials have decided to have no more base ball on Sundays and the Louisville club was notified that an effort to break the new rule would land them in jail, whereupon the Syracuse club manufactured an umpire, pitched nine balls and claimed the game by the very interesting score of nine to nothing.

"You are all the world to me," passionately swore the young man as he sat on one end of the sofa and gazed at his loved one with his soul in both eyes. "How long does it take a man to go 'round the world'?" asked she from the other end of the sofa. And the journey around the world was made quick enough to give Jules Verne the vertigo.—*Georgetown Times.*

It is estimated that over 20,000,000 cigars are manufactured every day in the United States alone, and this enormous number requires in the neighborhood of 420,000 boxes for their keeping. As a result there are over 200 factories in the country turning these boxes out. The wood of which these boxes are made comes from Mexico, Central America and the West Indies.

Southern California is only beginning to raise fruits. It will yet compete with Europe in many of such products. Ten years ago few if any raisins were shipped from California. We then imported over 1,700,000 boxes of Malaga raisins. Last year imports of Malaga raisins amounted to only about 100,000 boxes, while California shipped nearly 1,800,000 boxes.

It is now against the law to point a deadly weapon at a person, under the same penalty as attaches for assault, and if any person from ambush or any concealment or hiding place, shoot at any person, without inflicting a wound upon such person, he shall be deemed guilty of a felony, and, upon conviction, shall be confined in the penitentiary not less than one nor more than ten years.

The ex-democrat who stole from the Maryland treasury is now safely locked up in the State penitentiary, but W. W. Dudley is still at large and M. S. Quay is representing republican morals in the United States Senate.—*St. Louis Post-Dispatch.*

If the salt held in solution in the ocean were spread over the earth it would form a layer of more than 30 feet deep covering the whole globe.

CRAB ORCHARD.

—We hear that the Rev. R. H. Caldwell will begin a protracted meeting at Walnut Flat church the 3d Sunday in this month.

—There are now in the neighborhood of 400 guests at C. O. Springs and still they come from all points of the compass, the night trains bringing usually the greatest number. The place is holding its "rep" with the best of 'em and this season will be chronicled as one of the gayest in its history.

—A man giving his name as Sowders, from London, Ky., has been here for the last two weeks, taking options on several large farms in this vicinity. He claims to be buying for a syndicate, offers a fair price, but says he will close his bargain within 30 days. Are we to have a sure-enough, live boom in our midst?

—A fatal accident, resulting in death 20 hours afterward, occurred at Koeler's Mill, near here, Saturday afternoon. William Bentley, engaged in dragging saw logs, was thrown from the front end of a large log, upon which he was seated, and the log passed over his body, crushing him into the ground and bruising and breaking his bones. He got up, however, and walked to his home, a short distance away, when medical aid was summoned. Examination showed serious internal injuries and after intense suffering the man died Sunday. He was about 28 years old and a resident of Garrard until a few months ago. A wife and child survive him.

—We understand now why the Furies in Greek Mythology were represented by women. The other evening we stopped at a road-side fountain to get a draught of water, and there stood a man and woman "a fussin'" over a cow bell. It was a sight. The woman was giving the fellow Helen Blazes, with her arms outstretched, her face aglow, and her hair standing straight up like a peacock's. We pitied the fellow, even if he did take her cow bell, but we didn't stay to express it. We "toated" ourselves, resolving to face a lion, punch a hornet's nest, straddle an unbroke mule or stand before a sinister-eyed patent churn vender before angering a woman in the least.

—Falcon, in a recent letter to the Louisville Times from Rock Castle Springs, says that Col. McCarty, of the Jessamine Journal, is gathering material for a love story in which Montrose Graham is chosen the philosopher and is to make some geological surveys and develop a perfect Monte Cristo mine of wealth. Montrose used to live here, and is remembered by us all for his eccentricities, and would, we think, make a capital character for any novel. We admonish Col. McCarty, however, not to delineate him in a tub, as the ancient scribblers did Diogenes; but to show up his revolutionary coat and run-down-at-the-heel shoes, which he has been wearing ever since his natal day for all they are worth, and we will take a copy of the work.

—Miss Ella May Saunders, of Danville, Misses Honeywood and Fannie Huffman, and Mrs. Arnold, of Lancaster, were the guests of Mrs. James S. Fish this week. Mr. J. S. Edmiston is at home again after an extensive commercial tour through Kentucky and Tennessee. Mrs. Sue Curtis is visiting her sister, Mrs. Stuart, at Lexington. Mr. Henley McClure, the handsome and accommodating clerk at J. R. Bailey's, in company with Capt. V. M. Hill, of Middlesboro, made a flying trip to Louisville Wednesday and returned Thursday. Mr. and Mrs. Sam Higgins, of Somerset, are here spending a few days with relatives. Miss Annie Stuart is visiting in Danville. Mr. Henley Hutchinson and wife, who removed to Pineville some 14 months ago, have returned to C. O. to reside. Misses Mary and Jennie Shearers, of Madison, Mr. and Mrs. Dr. James Black have been the guests of Mrs. James S. Fish.

MATRIMONIAL MATTERS.

—Isaac M. Herrin, of Rockcastle county, aged 16 years, and Miss Martha E. Smith, aged 15 years, were married in Pulaski on the 31st.—*Republican.* They ought to have been paddled before being put to bed.

—Five hundred deaths from Cholera were reported at Mecca Sunday.

—Two hundred million dollars is the value Spain puts on the island of Cuba.

—Wm. H. Saddle was shot and killed by Wm. Littell, Jr., at Williamstown Sunday night. Both men were drinking.

—A colored preacher of Gordon county, Ga., poisoned a family of 10 colored persons with Roush on Rats, 3 of whom are dead and the others are not out of danger.

—It is said that J. B. Haggin has more money invested in fine horseflesh than any other man in America. The Rancho del Paso represents an investment of over \$1,000,000.

—The Nashville Herald has discharged its force of union printers and supplied their places with men from the Printers' Protective Fraternity. The trouble grew out of the refusal of the Typographical Union to allow the use of plate matter in the paper.

CHURCH AFFAIRS.

—There were five additions to the Methodist church Sunday morning.

—The very Rev. George McClosky died at Louisville Sunday. He is a brother of Bishop McClosky.

—Elders Rowe, of Georgia, and Clark, of Madison, will preach at Walnut Flat next Saturday and Sunday at the usual hours.

—The largest Sunday-school in the world is said to be at Stockport, England, having an attendance of 446 teachers and 5,180 scholars, in five divisions.

—The Christian church had another addition Sunday—Miss Myrtle Hughes—making one each for five consecutive Sundays. The pastor, Rev. John Bell Gibson, tells us that they will begin a protracted meeting in the near future.

—Mrs. Virginia Thompson, after a service of 13 years as post-master of Louisville, gave place to John Barret on the 1st. It is said that she will now devote her time to writing the life of her distinguished father, the great Alexander Campbell.

—The union meeting is still in progress and will continue at least till tomorrow night. Mr. Williams has been considerably indisposed since Saturday, but has preached right along, and with his usual force. He spoke entertainingly to the children Sunday afternoon, and after the close of that service, a large band of the Society of Christian Endeavor was organized to perpetuate the good that is now being done. Sunday night, tho' hot and sultry, the largest crowd that has yet assembled was present. The house was literally jammed. A good number of persons have made confession, most of whom have joined one of the four churches represented here. Mr. Williams' great desire is to have the church members strive for a higher christian life, knowing that they will then be instrumental in bringing the sinners to Christ. He will preach to-night on the inspiration of the Scriptures, hoping to remove doubts that any one may have along that line.

.....A SPLENDID.....

WASHINGTON CO. STOCK & GRAIN FARM

AT PRIVATE SALE.

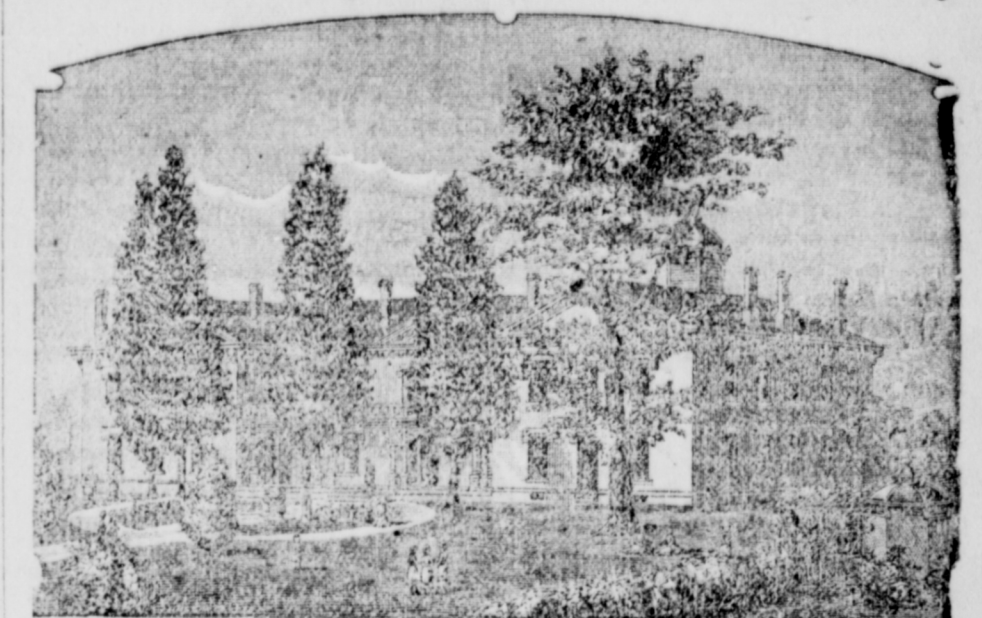

To close a partnership, we offer at private sale our Farm of

Nearly Five Hundred Acres.

Near Mooresville, Washington county.

This Farm is situated on the turnpike leading from Mooresville to Chapin and is about 5 miles from Springfield, 7 miles from Bloomfield, 5 miles from Valley Hill, a depot on the railroad, between Bardonia and Springfield, and about an hour's run from Louisville. There is on the Farm a good considerable house, a new barn, a brick building, a brick having burned a year or so ago, and all necessary farm buildings, consisting of stables, corn cribs, granary, smoke house, buggy house, poultry house and yard and two large tobacco barns. A good portion of this land is in blue grass, timothy and clover and has a beautiful supply of never-failing water, well distributed in the different pastures and fields; and the whole is in a good state of cultivation. In short, it is a highly productive Farm, which the crops of grasses, grain and tobacco grown on it yearly attest. It is an incontrovertible fact that Washington county lands have been selling 25 to 30 per cent. cheaper than lands of a like character in any other part of the State, and this has undoubtedly been due to the fact that the county has been without railroad facilities, until the past two years. No county in the State raises finer horses, cattle, blue-grass, grain or tobacco. Our sole reason for offering to sell this farm is to close our partnership, and to a man wanting good land, well located, at a low price and on good terms, we will sell the cheapest farm in Kentucky. No use to go West, and you'll say so, when you see this land. To parties who might want this land we will say that it is susceptible of division and we will sell to suit purchaser. Call on us on the place or address us at Mooresville, Ky. (4-6w) A. C. & JOHN TAYLOR.

W. P. WALTON.

THE Pineville Messenger says that Col. John B. Fish, now a bloated bondholder, broker and capitalist, erstwhile the INTERIOR JOURNAL's beloved Mr. Vernon correspondent, is making the canvass for the democratic nomination for Congress in the 11th district on a platform which guarantees to the Union another State to be formed from slices of Kentucky, North Carolina and Tennessee. We always knew John was a man of parts, and big parts at that. The scheme is a good one. The crying need of this country at present is a few more little States and we wish the originator and patentee of the idea great success.

SENATOR McCREERY, who left an estate valued at \$100,000, only willed \$3,000 to his worthless son, Hawes, and adds, "It is less than I have given to others, and so I intend it. If he shall adopt any serious employment it is enough, if he shall fail to do so it is too much. It is a foundation upon which industry may rear a superstructure, or idleness may destroy it." There is a whole sermon in this and boys who are disposed to look upon the wine while it is red and fritter their time away in idleness, should do well to study it.

ANOTHER Ohio democratic convention has adjourned after hundreds of fruitless ballots to select a candidate for Congress. It begins to look very much like the democrats are going to throw away the advantage of the gerrymander by quarreling among themselves. Fortunately, however, the republicans are not in much better shape. They took 532 ballots in the 10th and then adjourned in disgust without making a nomination.

THE Little Red Hog has shied his castor into the Congressional ring in the 11th and will proceed to inflict his matchless oratory on the dear people. It is well for them that the people of the 8th will be spared the infliction. From all we can gather the l. r. h. will stand no more chance in the new district than he did in this. Col. Silas Adams, a gentleman and a scholar, has the cinch on a seat in the next Congress.

THE Louisville Times proved that its average circulation was 21,101 for the 60 days prior to July 1, during which time it printed and sold 1,268,110 copies, and was again awarded the Jefferson county printing. The Times is a great newspaper and has won by honest and persistent effort the unparalleled success it has achieved. Brown, Newman and Emerson are the "Big Three" of Louisville's journalists.

EVEX with a highly doctored statement, the republican financiers could show a reduction of the public debt of less than \$400,000 last month. Figures won't lie if they are used right, but the republicans can distort them into greater liars than the devil, who, Holy Writ tells us, is the father of liars and a liar from the beginning.

JOHN W. LANGLEY, the disgraced representative from Floyd and Johnson, has been appointed a member of the board of pension appeals at \$2,000 a year. He is exactly the kind of a creature the present administration delights to honor.

A CONGRESS that would pass such a thing as the McKinley tariff bill ought to enact a bankrupt law. It will be needed by the farmers and others when the provisions of the former iniquity go into effect.

Gov. McCREERY arrived at Richmond in time to make a rousing speech for the democratic ticket and put in his vote for it. Our congressman is a democrat indeed and in truth and can always be relied upon to do the correct thing.

It is more than probable that there will be additional trouble, as O'Conner is considered a man of grit.

—The Middleboro News says: "The two tremendous furnaces of the Watts Steel and Iron Company, which will cost over \$400,000, are rapidly nearing completion, and now the same company has put another tremendous spoke in Middleboro's wheel of prosperity and happiness. On yesterday they signed the contract with J. P. Withrow & Co., of Pittsburgh, for the erection of a tremendous open hearth basic steel plant, the contract price being \$339,000. This will be one of the largest and most complete plants of the kind in this country and will give employment to an army of men. This plant will convert into steel, the output from the coke furnaces."

—Charles McCaffry, the Canadian bridge jumper, while giving an exhibition in Boston was killed.

—Pension Agent Walton paid out \$341,140.12 to Kentucky pensioners during the month of July, a pretty big slice out of the surplus.

—The 27,000 married men of New York who are supported by their wives, heartily denounce the notion that marriage is a failure.—Courier-Journal.

—Mrs. Tina Rogers, a patient of the Hopkinsville asylum, hanged herself Saturday night with a strip of cloth torn from her clothing. She was from Muhlenberg county.

—Another violent storm passed over Minnesota and South Dakota Sunday afternoon, said to have been the severest of the many severe storms that have swept that region.

—Elijah Bowine, a farmer, living near Nicholasville, attempted suicide by hanging, but was discovered before life was extinct. He will probably die. This is his second attempt.

—Upward of 1,000 employees of the Catawqua Iron Mills at Allentown, Pa., who have been on a strike for five weeks, have accepted the employing company's offer, the rate of wages paid in Philadelphia.

—In a fight on Smoky Row, at Harrodsburg Saturday night, Hugh McElroy was shot and killed by another negro named Tom Singleton. The trouble arose over a game of cards. Singleton made his escape.

—It is encouraging to note that the Senate has reduced the duty placed by the House on chloroform nearly 40 per cent. Chloroform is very useful in facilitating the increase of population.—Cincinnati Enquirer.

—Crops are in very bad condition in Christian county on account of the long-continued drouth. There will not be enough wheat and corn to supply the home demand and many small farmers will be reduced to absolute want.

—At Wilkesbarre, Pa., a husband and wife agreed to settle by a fist fight who should wear the breeches and in the 4th round the husband was knocked out. Instead of accepting the result, he applied for a divorce, which was denied him.

—The Southern Pacific Co. has accepted the offer of the subsidy of \$315,000 and the rights of way to complete a coast line of railway between Santa Margerita and Ellwood, thus making a continuous line from San Francisco to Los Angeles.

—Two negroes were hung at Lancaster, S. C., Friday, for the murder of another, with whose wife they were intimate. The wife of the murdered man, who is yet to be tried, witnessed the execution from her cell with apparent indifference.

—Lexington suffered a \$35,000 fire Sunday. The Daily Press office and fixtures, save the books and files, were consumed, while the Gazette counting room was damaged considerably by fire. The fire originated in a carpenter shop and spread over an entire block.

—The total number of deaths by wind-storms and lightning since January last is estimated at 1,100, as compared with only 163 deaths from the same causes during the whole of 1889. This is a record which will make this season memorable in the annals of meteorology.

—Schofield Grant was run over and killed by a train at Greensboro, N. C., and cut literally in two, but talked calmly of the accident and of his approaching death; but his grandmother was so affected by the horrible sight that she fell dead on seeing the mangled form.

—Near Hazard, two cousins named Coyhart were found dead, with pistols in their hands, from both of which shots had been fired. Between them on a stone, was a pack of cards lying as if left by players. One man was shot in the back, the other in the breast, and it is believed that they were shot while at play and robbed.

—There was another disastrous wreck on the Louisville, New Albany & Chicago railroad Sunday morning. Two passenger trains, No. 3, from Chicago, and No. 6 from Louisville met on a curve near Bedford, Ind., and both engines, both mail cars, and the two baggage cars were demolished. Engineer Arthur Byrne and Fireman George Kohl, of New Albany, who were on the south-bound train, were instantly killed, while Engineer Muir, of the north-bound train, was so badly hurt that he will die. The others more seriously injured were Baggage-master John Stillwell, Express Messenger John Blackwell, Frank Tilford, postal clerk, all of Louisville; and J. W. Jenkins, porter. The wreck is said to have been caused by carelessness.

ANOTHER BIG SALE

This week at the Louisville Store. We feel that this simple announcement is all that is necessary to say to the public. It requires no lengthy argument to convince our patrons that it is to their advantage to attend this

Bargain Sale!

Made to clear out the balance of Summer Stock in Dry Goods, Clothing, Shoes, Hats, Trunks, Carpets, Matting, &c, and these will surpass any bargain sales heretofore advertised. Everything remaining of Summer Goods will be closed out at prices never before quoted in Stanford or elsewhere. We do not give any items; it is not necessary. The public is aware that we are always in the lead when bargains are to be had. It is strange to see how easy business is done when it is done right. Some firms can get customers and hold them as easy as falling off a box. Others can't hold trade any more than a sieve can hold water. Some are timid, afraid to lay in a liberal stock and afraid to sell at close prices. Others are

Shiftless and Too Lazy to Keep Up

With the times and too tired to work for their patrons' interest. And then there's your greedy firm who piles on the profit with the idea that people will willingly submit to being bled. Of course all these things are fatal to success in business and don't you forget it. This is the house for you that works for business, works to be in the lead and works to carry the fullest and best stock in town.

—Receipts of cattle in Cincinnati were light and prices ranged from \$4 to \$4.25 for good to choice shippers to \$1.25 to \$2.25 for fair to common stock. Sheep were dull at \$2.25 to \$4.60. Lambs have declined very considerably, especially the lower grades, and sold at \$3 to \$6.

—The Harrodsburg Fair finished a very successful meeting Friday. The crowds were large each day and a couple of good trots every afternoon made the sport good. The closing race was won by Crit Davis' Poem in 2:26½ and the "green race," that is those horses that had never started prior to July 1, was won by Nellie W. in the fast time of 2:26½.

—Crops of all kinds are exceedingly bad in Tennessee, with the exception of cotton. Wheat has only made one-third of an average crop, and there will be none for export, while corn is estimated to provide only 30 bushels to each inhabitant. Tobacco is not only decreased in acreage, but the plants are certain to make a reduced yield on account of the drouth.

AN old democrat, who has been voting for at least 40 years, was seen to write his name on the back of the ticket he voted yesterday. On being questioned why he did so, he replied that he thought it necessary and had always done so, and too, he said that it looked like he endorsed the candidates thereon.

HOLDERS of First National Bank stock of Fort Scott, Kansas, are gratified over the receipt of checks from Vice-President E. R. Chenault covering a dividend of 4 per cent. The institution has a capital of \$300,000, a surplus of \$3,036.25, individual deposits of \$212,516.65 and loans and discounts of \$499,725.11. NINE teachers presented themselves at the regular monthly examination, Friday, and spent the day racking their brains on the tough questions propounded. Prof. Stonewall Jackson Pulliam, of Georgetown College, assisted Miss Bogle in the examination. The colored teachers will be given a chance next Friday, the law fixing the 1st and 2d Fridays of each month for the white and colored applicants respectively, from July to January.

A SCALY TRICK.—Thursday night about 10 o'clock Joe Nevius was awakened by loud talking in front of his mother's house and went out to see what the trouble was. Just as he got out of the door he was struck in the face with a rock. He immediately began shooting at the four or five men standing on the street, who took to their heels and were soon out of sight. He could not tell who the parties were, but thinks it was merely done for mischief.

RELEASED ON BAIL.—When the case of Dick Gentry for the murder of John Sandifer was called at Lancaster, Friday, the Commonwealth witnesses were not all present and the examination could not proceed. Counsel for defendant insisted on an immediate trial, or that he be allowed a guard, but the prosecution could not promise to be ready till next week. It was then proposed that the Commonwealth's lawyers fix the amount of bail they thought sufficient, when \$10,000 was proposed and accepted. Cols. Hill and Welch furnishing the bond for Gentry's appearance at circuit court on the 3d Monday. The counsel for the accused are Hill & McRoberts, W. G. Welch and W. O. Bradley, while County Attorney J. H. Brown is assisted by Gen. W. J. Landram and Judge M. J. Durham.

C. O. S.—Another large delegation from this place attended the ball at Crab Orchard Springs Friday evening and as usual enjoyed the occasion greatly. Including those from the surrounding towns, the register showed that there were nearly 450 guests and Old Crab Orchard was again like it was in its palmiest days. Through the kindness of the management, the music did not quit at 11 o'clock, as usual, but continued till nearly 1, when even at that hour the guests reluctantly left the ball room. We are glad that the public has again become aware of the many advantages found at Crab Orchard and are pleased at the success the splendid resort is enjoying. The young ladies who went from Stanford were: Misses Nettie Wray, Mattie Owsley, Ella Shanks, Lucy Tate, Sallie Moore, Fields Jameson, Mrs. G. C. Givens, Mrs. Jameson and the gentlemen, Messrs. Tribble, Owsley, Danks, Pennington, Owsley, Embry, Rout, Carson, Walton and Carson.

WILL WALLACE suffered a sun-stroke yesterday while working in his father's blacksmith shop. Dr. Reid was called and soon restored him to consciousness, and he is now improving.

HAVING bought out Mrs. Courts' interest in the millinery business, I would take it as a favor if those indebted to the old firm would come promptly and settle up. All of the accounts are in my hands. Annie Wray.

THOSE faithful old democrats, Messrs. J. L. Dawson, Sr., and George W. Tribble, came to town yesterday and as usual put in a couple of straight, Simon-pure democratic tickets. May they live long and continue the good work for years to come.

THE republicans and the prohibitionists were exceedingly fond of each other's company yesterday and could be seen off in squads caucussing all day. Can it be that they are preparing for the future, or is it the old, old story that misery loves company?

THE C. H. & D. will sell round-trip tickets to Boston on account of the G. A. R. encampment, Aug. 8-10, good returning till 20th, at \$14 from Cincinnati. For information call on or address nearest agent of C. H. & D. or Erie Railway ticket agents.

A SMALL vote was polled in this county yesterday. We have heard of no disturbance except the one in which Marshall Newland was shot. Enough has been gathered from the different precincts to insure the election of the democratic ticket by a large majority. Following is the vote of this precinct at the close of the polls:

PRECINCT No. 1.

For Superior Judge, Barbour, 191; Appellate Clerk, Longmoor, 188; Mrs. Henry, 21; Tinsley, 122; County Judge, Varnon, 250; Gooch, 25; County Clerk, Cooper, 261; Gooch, 20; County Attorney, Paxton, 267; Sheriff, Menefee, 277; Supt. Schools, McClary, 242; Miss Bogle, 32; Assessor, Kennedy, 210; Coffey, 114; Surveyor, Evans, 232; Coroner, Carson, 228; Jailer, Owens, 252; Sibold, 19; Magistrate, Hampton, 44; Dawson, 164; Richards, 213; Constable, Dan Miller, 166; Delegate to Constitutional Convention, Miller, 229; Hackley, 32.

PRECINCT No. 2.—Superior Judge, Barbour, 194; C. H. Court Appeals, Longmoor, 186; Tinsley, 101; Mrs. Henry, 22; County Judge, Varnon, 224; Gooch, 18; County Clerk, Cooper, 228; Gooch, 17; County Attorney, Paxton, 245; Sheriff, Menefee, 262; School Superintendent, McClary, 224; Miss Bogle, 41; Assessor, Kennedy, 197; Coffey, 98; Surveyor, Evans, 215; Coroner, Carson, 213; Jailer, Owens, 235; Sibold, 17; Constable, Dan Miller, 215; Magistrate, Richards, 234; Dawson, 205; Delegate to Constitutional Convention, Miller, 232; Hackley, 26.

It is generally conceded that McClary has a safe majority over Miss Bogle.

The latest from Walnut Flat was that the democratic majority was about 60 all around.

The following was gotten about 4 o'clock yesterday afternoon, which gives the majorities up to that hour as follows: Hustonville, Varnon 118, Owens 125; Cooper 225, Miss Bogle 119; Turnersville, Varnon 97, Cooper 110, Owens 108; Paxton 115, Miller 76, McClary 68.

(Special to the Interior Journal.)

HARRODSBURG, KY., Aug. 25, 4:00 P. M.—Moore, democratic nominee for delegate to constitutional convention, elected by at least 500. J. B. O.

(Special to Interior Journal.)

DANVILLE, Aug. 4, 4:05 P. M.—Indications at this hour are that the whole democratic ticket will be elected by a majority of 300 to 400. B. G. B.

(Special to the Interior Journal.)

LOUISVILLE, KY., Aug. 4.—Small vote polled here. So far, the democrats lead, however, by from 3 to 5 to 1. State returns indicate full vote, with good democratic majorities. EVENING TIMES.

FINE lot of fresh candies just received by Mark Hardin.

WE have it from good authority that republican emissaries from Boyle were in this county Saturday offering \$2 for darkies to go down there and vote for Caldwell.

MIDDLESBORO is still far ahead of Pineville. It took a bogus baron to work the former, but a plain, every day American, by the name of Lee, got hundreds of dollars out of the latter and succeeded in getting checks cashed to the amount of \$3,000.

THE chicken thieves have been getting in their work for the past week and the consequence is the more honest class has had to resort to "hog and hominy" for their sustenance instead of enjoying the favorite member of the feathery tribe.

THE Stanford & Logan's Creek Turnpike Co. organized and elected E. T. Pence, president; J. F. Peyton, D. W. Vandever, S. H. Shanks and John S. Owsley, directors; W. M. Bright, treasurer; W. E. Varnon, clerk and attorney for the company, and are now ready to receive sealed bids for the construction of the same on or before the 20th inst. The specifications can be seen at the store of D. W. Vandever, or by calling on the president, D. W. Vandever, sec'y pro tem.

SHOT THROUGH.—Our faithful town marshal, John Newland, was shot, very probably fatally, yesterday evening by Bill Teeters, who lives in the Dudderar's Mill neighborhood. The circumstances are: Green Buster, a friend of Teeters, had cursed a colored woman and she had sworn out a writ for his arrest. Marshal Newland was informed and on searching for him found he had gone to Rowland and he, with Joe Severance, Jr., went down to bring him back. They had no trouble with him, but Teeters came up at that moment and pushing Newland aside, demanded that Buster be released, and at the same time drew a 38 Smith & Wesson and began firing. Mr. Newland also began to shoot and ten shots were exchanged, Teeters receiving only a slight skin wound in the shoulder, while the former received a very serious one just to the right of his heart. The ball took a downward course and lodged in the skin under his right arm. Both Teeters and Buster were arrested and lodged in jail. They have an unsavory reputation and have behaved badly on several occasions. On questioning Dr. McRoberts in regard to Mr. Newland's condition he spoke of him as very badly wounded; that internal hemorrhages had begun and the chances were against his recovery. LATER. At 9 o'clock last night Mr. Newland was resting easier.
